Kratek opis

Pipe double nipple 23, ET/ET, Black steel, R 3/8, Length 100.0 mm, Max. working pressure 50 bar, DIN EN 10241
The steel fittings are made of tubular steel to DIN 2441 and boast good resistance to mechanical stresses.
Hot dip galvanised steel fittings are completely coated with a layer of pure zinc and are therefore protected against rust. They are used in pipe construction, plumbing and gas installations as well as a wide range of industrial applications, especially in conjunction with the popular malleable iron series.
