

Seat valves operated by secondary pressure for controlled pressurisation of pneumatic systems.
 The full cross-section of the regulator is opened at 50% of the input pressure.
 The filling time can be altered by turning the adjusting screw.

Input pressure:	Min. 2 bar, max. 16 bar
Medium temperature:	Max. 60 °C
Ambient temperature:	Max. 60 °C
Housing:	Aluminium
Sealant:	NBR
Flow rate measurement:	At P ₁ = 6 bar and pressure drop Δp = 1 bar

Start-up valves
