

Proporcionalni kont. ventil »sentronic LP«24V DCG 1/4DN 4

Kategorija: [Proportional control valves, »sentronic LP« type](#)
Šifra: **135885RIE**

(slika je simbolična)

Kratek opis

Proportional control valve »sentronic LP«, 3-way design, with control circuit, 24 V DC, G 1/4, DN 4, Pressure range 0 - 10 bar

Proportional valve for simple and efficient pressure regulation.

With low space requirement, simple operation, modular design and modern software (see Downloads), the valve offers many options for optimising your processes.

Digital communication and control technology.

Low power consumption < 4 W through servo-assisted pilot valves.

Other functions are diagnostics, parameterisation and service.

Servo-assisted proportional valve, conforms to RoHS, REACH.

The target value is preset via the electrical plug connection as a standard signal (0 - 10 V).

Tehnične Specifikacije

Električna nastavitev	0 - 10 V
Merjenje pretoka	At $P_2 = 6$ bar
Navoj	G 1/4
Notranji deli	G 1/4
Ohišje	Aluminium
Poskusno	0 - 10 V
Srednje	Air or neutral gases, filter.50 μ m, lubricat. or unlubricat.
Tesnilo	NBR
Vedenje v varnostnem načinu	Maintenance of press. in case of loss of voltage-non control
histereza	1% FS
Ponovljivost	1% FS
Delovanje	3-way valves
DN	4
Max. delovni tlak [bar]	10
Max. sobna temperatura [°C]	50
B [mm]	52.0
Max. temperatura medija [°C]	60
H [mm]	115.0
Pretok	470 l/min
