Tlačni regulator DRV 225, Visokotlačna izvedba, G 2, 1.5-20 bar

Kategorija: DRV 225 pressure regulator, high-pressure type
Šifra: **101444RIE**

Kratek opis

Pressure regulator DRV 225, High pressure design, non-reversible, incl. pressure gauge, G 2, Control range 1.5 - 20 bar
Diaphragm pressure regulators with non-self-relieving design and non-pressure-reduced single-seated valve. Very precise adjustment and good response characteristic because there are only a few moving parts and hence minimal friction.
Ideal for compressed air, nitrogen and other neutral, non-flammable gases, but only suitable for liquids with comparatively low flow rates.

Tehnične Specifikacije

Navoj	G 2
Ohišje	Red brass 2.1096.01
Tesnilo	NBR
Vzmet pokrova motorja	Grey cast iron
Min. krmilno območje [bar]	1.5
Razmerje zmanjšanja max.	6:1
Pretok KVS vrednost [m³/h]	7.2
Max. krmilno območje [bar]	20
Max. vhodni tlak [bar]	40
DN	50
D [mm]	70.0
Max. temperaturno območje [°C]	75
A [mm]	146.5
C [mm]	349.0
B [mm]	419.0
