Vrtljivi sesalni priključek »flexolink«, G 1/4 IT, G 1/4 ET

Kategorija: Flexible suction pad mountings
Šifra: **108546RIE**

Kratek opis

Pivoting suction pad attachment »flexolink«, G 1/4 IT, G 1/4 ET, Steel / rubber, Bracket 12°, Bending moment 10 N
Flexible suction pad mounting
By flexing in all directions, this mounting allows the suction pad to better adapt itself to sloping workpieces.
Advantages:
• Very good adaptation to sloping workpiece surfaces
• Automatically resets into the initial position
• Vacuum-tight design with integrated protection against damage
Applications:
• Handling workpieces with sloping surfaces using large-area suction pads
• Handling large sheets of materials that may sag when lifted
• Can be used together with spring plungers to compensate for differing workpiece heights and uneven surfaces
