Kratek opis

Block valve pressure gauge, Bushing - Bushing, made of stainless steel 1.4571, G 1/2, PN 25 bar, AF 27, max. 50 °C
It is useful to install a stopcock as a shut-off element between the pressure gauge and the pipe.
When the lever is set to the »blow out« position, the medium is discharged into the atmosphere.
Stopcocks with a test port allow pressure gauges to be simultaneously connected to the pipe.
